

Intensive FileMaker Training

The Power of FileMaker – Part 1 (Intermediate level)

26 – 27 November 2018,

Federation Room, Adina, 88 Flinders Street, Melbourne, Vic 3000

Building on the content of classes offered internationally and led by acclaimed FileMaker author and developer Ray Cologon, NightWing Enterprises is pleased to offer two days of intensive training suitable for intermediate FileMaker developers.

The cost of this 2-day course is AUD \$1,150 (plus GST if applicable)

The course fee includes light lunch and refreshments on each day and all course materials. Attendees should bring a laptop computer.

This class is designed for people who:

- have a broad grounding in the feature set of the FileMaker platform
- have some experience working with and developing FileMaker apps
- wish to build their FileMaker skills further to more fully utilise the capabilities of FileMaker as a development environment

The class will cover topics in:

- core techniques of FileMaker professionals
- extended skills for interface design
- the secrets of data modelling
- building blocks of logic: FileMaker calculations
- scripting: the FileMaker procedural engine
- system architectures for flexible and practical app deployments

At the end of the class you will be able to:

- understand and apply a broad range of professional development approaches
- add to the quality and power of your solutions
- access an extended range of options and techniques in your development
- enhance the scope and robustness of the systems you create
