

Intensive FileMaker Training

The Power of FileMaker – Part 2 (Advanced level)

Selected dates and locations in 2019

Building on the content of classes offered internationally and led by acclaimed FileMaker author and developer Ray Cologon, NightWing Enterprises is pleased to offer three days of intensive training suitable for intermediate FileMaker developers.

The cost of this 2-day course is AUD \$1,150 (plus GST if applicable)
The course fee includes light lunch and refreshments on each day
and all course materials. Attendees should bring a laptop computer.

This class is designed for people who:

- have a detailed understanding of the feature set of the FileMaker platform
- have extensive experience working with and developing FileMaker apps
- aim to consolidate and extend their FileMaker skills and to achieve readiness to address challenging problems

The class will cover topics in:

- advanced interface design and user interaction modelling
- extended problem-solving techniques for FileMaker development
- calculation skills for advanced FileMaker developers
- FileMaker scripting techniques to address complex challenges
- system integrity, security and stability
- strategies for professional FileMaker developers

At the end of the class you will be able to:

- work confidently with a range of advanced development techniques
- extend the reach of your development practice to accomplish more
- gain a deeper understanding of the inner workings of the FileMaker platform
- build high level skills to complement your experience with FileMaker
