Intensive FileMaker Training

FileMaker Master Class
(Expert level)
Selected dates and locations

Building on the content of classes offered internationally and led by acclaimed FileMaker author and developer Ray Cologon, NightWing Enterprises is pleased to offer three days of intensive training suitable for experienced and expert FileMaker developers.

The cost of this 3-day course is AUD $1,600 (plus GST if applicable)
The course fee includes light lunch and refreshments on each day
and all course materials. Attendees should bring a laptop computer.

This class is designed for people who:
- are well acquainted and experienced with the full feature set of the FileMaker platform
- have experience developing and deploying complex solutions
- wish to enhance their knowledge, skill and understanding, taking their development work to a new level

The class will cover topics in:
- mastering solution design
- data and structure: FileMaker application models
- process control: advanced scripting techniques
- addressing complex code logic: the FileMaker calculation engine
- designing for scalability
- advanced development techniques & quality assurance

At the end of the class you will be able to:
- apply a range of innovative development techniques
- enhance the flexibility and performance of your solutions
- understand deeper nuances and complexities of advanced FileMaker development
- choose the most effective frameworks and techniques to further your advanced development practice
